SHIVANSH KANSAL

PROFILE SUMMARY

PGDM candidate with project experience analysing five years of financial statements for three listed companies. Brings Excel skills, exposure to data-backed cost optimisation and experience leading cross-functional student teams. Built Daybook to automate data collection and validation using AI. Keen to develop financial planning and analysis skills and explore how intelligent automation can improve financial reporting and business decisions.

INTERNSHIPS

E-Commerce Intern **, Candes Technology Pvt. Ltd.** **May 2023-Jul 2023**

- Partnered with the project manager on data-backed cost optimisation and sales growth strategies, accelerating digital channel performance
- Ran daily e-commerce operations and marketplace inventory listings to daily deadlines, growing online sales volume
- Rebuilt catalogue copy across major e-commerce platforms, improving search visibility and conversion

ACADEMIC PROJECTS/TRAINING

Comparative Financial Analysis, Diagnostics Sector

- Modelled 5-year profitability, solvency, efficiency, DuPont and cash-flow ratios across three listed diagnostics firms (Dr. Lal PathLabs, Metropolis, Vijaya)
- Benchmarked intra- and inter-firm performance against annual reports and MD&A disclosures, translating findings into an investment view

Daybook: AI-Powered Student Dashboard (self-initiated, live)

- Built Daybook with Claude Code and Antigravity as build agents, consolidating Gmail, LMS and Excel/PDF data into a live dashboard
- Automated email classification and deadline extraction with Gemini; added rule-based fallbacks, source references and validation checks
- Enabled personalised access for a 350-student roster; published Daybook Sync on Chrome and Edge stores
- Reduced initial-load data transfer by ~84% (1.1 MB to 178 KB) by profiling bottlenecks and streamlining data retrieval

Co-Founder, Booklyn (self-initiated venture)

- Spotted unmet demand for books the college did not provide; sourced directly from wholesalers and distributors at or below market price
- Ran a pre-order model via WhatsApp and a website, buying only against confirmed orders to protect working capital, for ~1 year
