Financial Analyst - LIFT (Intern) - India

The application window is expected to close on: October 26, 2026

NOTE: Job posting may be removed earlier if the position is filled or if a sufficient number of applications are received.

Meet the Team

Cisco's Leaders in Finance and Technology (LIFT) Program consists of both a 10-week summer internship program and a full-time 2-year rotational program for Financial Analysts.

Our summer internship serves as an excellent opportunity for high-performing interns to be successfully converted into our two-year full-time rotational program for Financial Analysts. The summer internship is based in Bangalore, India.

Your Impact

As an intern, you will join our top-notch global finance organization that has business partners spanning across all of Cisco (sales, engineering, etc.). Throughout the summer you will also be able to collaborate and network with fellow interns, team members, managers, and senior leaders.

Within our Finance Internship Program experience, you will have the opportunity to:

- Work within Cisco Finance close to our fiscal year close.
- Engage in a substantive finance role, directly contributing to the success of your team. The specific type of work varies based on which finance organization you'll be placed into. Types of roles can include Financial Planning & Analysis, Managing Operating Expenses, Commercial Finance, Accounting, and more!
- Work on an intern team project focused on a real Cisco business challenge. At the end of the summer, you'll then get to present your findings and recommendations to our APJC finance community and relevant stakeholders.
- Collaborate and network with finance leaders, dynamic cross-functional teams, and early in career professionals
- Transform data into actionable insights to address business challenges
- Utilize AI-driven tools and intelligent automation agents to streamline financial reporting processes, extract actionable insights from complex datasets, and enhance the efficiency of team workflows.
- Learn and develop the business acumen and skills necessary to becoming a future finance leader
- Attend various events throughout your experience that will expand your professional network and career development

Cisco Confidential

Minimum Qualifications

- To be eligible for the internship, you must be enrolled in a 2-year master's degree program and graduating between December 2027 – June 2028.
    - Should be a recent graduate with a bachelor's degree pursuing their 1st year in a 2-year master's degree program with a major in Accounting, Finance or other similar Finance related streams with no gap between undergrad and the master's program.
- Available to start in our internship program as part of a cohort from April 5 – June 11, 2027.
- Able to legally live and work in India, without visa support or sponsorship now or in the future (even after graduating college).

Preferred Qualifications

- Demonstrated proficiency in finance principles and technical excel skills
- Foundational knowledge of AI tools and a strong aptitude for proactively applying emerging technologies to enhance financial modeling, data analysis, and workflow efficiency.
- Excellent communication skills, meticulous attention to detail, and a collaborative spirit
- Current involvement in varied college experiences:
    - Leadership roles in student organizations or clubs
    - Active participation in sports or extracurricular activities
    - Experience studying abroad

#WeAreCisco

Cisco is where every individual brings their unique skills and perspectives together to pursue our purpose of powering an inclusive future for all.

Our passion is connection - we celebrate our employees' diverse set of backgrounds and focus on unlocking potential. Cisconians often experience one company, many careers where learning and development are encouraged and supported at every stage. Our technology, tools, and culture pioneered hybrid work trends, allowing all to not only give their best, but be their best.

We understand our outstanding opportunity to bring communities together and at the heart of that is our people. One-third of Cisconians collaborate in our 30 employee resource organizations, called Inclusive Communities, to connect, foster belonging, learn to be informed allies, and make a difference. Dedicated paid time off to volunteer - 80 hours each year - allows us to give back to causes we are passionate about, and nearly 86% do!

Our purpose, driven by our people, is what makes us the worldwide leader in technology that powers the internet. Helping our customers reimagine their applications, secure their enterprise, transform their infrastructure, and meet their sustainability goals is what we do best. We ensure that every step we take is a step towards a more inclusive future for all. Take your next step and be you, with us!
